

# Neem

*Azadirachta indica*

*Skin*

Neem leaves: flavanoid quercetin and nimbosterol as well as a number of limonoids.

Flowers: waxy material with several fatty acids.

Bark: different form of tannins

*Care*

Seed: principals such as azadirachtin, azadiradione, fraxinellone, nimbin, salannin, salannol, vepinina and vilasinin.

It exhibits anti-inflammatory activity by suppressing *P. acnes*-induced reactive oxygen species (ROS) and the pro-inflammatory cytokines TNF-a and IL-8.; *supported by some studies.*

**Medzus**  
*Believe to Achieve*

We offer extract of all the parts of neem.
