

# Garcinia Cambogia

Garcinia cambogia extract obtained from the fruits of the garcinia cambogia tree, which is rich in Hydroxycitric acid (HCA).

HCA is a competitive inhibitor of ATP citrate lyase, a key enzyme which facilitates the synthesis of fatty acids, cholesterol and triglycerides.<sup>1</sup>

Garcinia cambogia derived HCA is safe natural supplement for **weight management** <sup>1</sup>

We offer HCA in 50%, 60% & 65% and granular as well as powder material
